ABDELRAHMAN SABRY

Alexandria, Egypt (Open to Cairo & Relocation) | +20 109 047 1145 | abdulrahmansabry360@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Aspiring Data Analyst / BI Analyst with a completed Data Analysis Diploma from Route IT Training Center, recognized as one of the top achievers of the program, and over a year of hands-on retail and independent project experience across pharmacy and real estate. Skilled in Excel, SQL, Power BI, and Python (pandas), with practical experience cleaning data, building dashboards, and turning operational records into clear insights. Currently completing a bachelor's degree in Information Systems while seeking a Data Analyst or BI Analyst role where business understanding and analytical tooling come together to drive better decisions.

EDUCATION

Abu Qir Higher Institutes | Alexandria, Egypt Expected Graduation: June 2028

Bachelor's Degree in Information Systems — Third Year

PROFESSIONAL EXPERIENCE

Real Estate Projects – Independent Operator | Alexandria, Egypt May 2026 – Present

- Perform data analysis on multiple independent real estate projects, examining listings, pricing, and unit availability to support decision-making.
- Build and maintain spreadsheets to track project status, inventory, and client inquiries across several concurrent projects.
- Apply the same data-cleaning and reporting approach used in retail operations to real estate data, turning raw records into clear summaries for stakeholders.

Pharmacy Assistant | Pharmacy, Alexandria, Egypt 2023 – 2024 (1 year)

- Managed inventory for a wide catalogue of pharmaceutical products, tracking expiry dates and reorder levels to minimize stock-outs and expired-product losses.
- Logged daily sales transactions and reconciled cash against system records, maintaining consistently accurate end-of-day balances.
- Identified recurring and seasonal demand patterns from sales history and shared purchasing recommendations that improved availability of high-demand items.
- Served a high volume of daily customers, handling requests accurately and confidentially in a fast-paced, detail-critical environment.

PROJECTS

Multi-Sector Data Analysis – Diploma Final Project | Route IT Training Center September 2026

- Delivered and formally defended a multi-sector analytics project covering real estate, supply chain, airports, telecom, and perfume/retail datasets.
- Queried and cleaned raw data using SQL and Python (pandas), resolving duplicates, nulls, and inconsistent formatting across each dataset before analysis.
- Built sector-specific analyses and visualizations to surface patterns and KPIs relevant to each industry, from operational metrics to customer and sales trends.
- Presented findings and business recommendations to instructors and peers on 18 September 2026, defending the methodology and conclusions drawn from the data.

PERSONAL DEVELOPMENT

- Completed a Data Analysis Diploma (data cleaning, SQL, data modeling, dashboard design) and a Programming Fundamentals Diploma (programming logic, control structures, problem solving).
- Maintain an ongoing portfolio of self-initiated analytics projects and dashboards built on real and public datasets.

SKILLS

Data Analysis & Visualization: Microsoft Excel (PivotTables, Power Query, advanced formulas, lookups, conditional formatting), Power BI, dashboard design, KPI tracking, data cleaning, data modeling, data interpretation, report building.

Databases & Querying: SQL — SELECT statements, joins, filtering, grouping and aggregation for reporting and analysis.

Programming: Python (pandas) for data cleaning and analysis; core programming logic, control flow, functions, and algorithmic problem solving.

Microsoft Office Suite: Excel, Word, PowerPoint, Outlook — used for reporting, documentation, and presentations.

Business & Operations: Inventory and stock control, sales reporting, demand and trend analysis, cost tracking, client/project coordination.

Professional Skills: Analytical thinking, attention to detail, business communication, stakeholder reporting, time management, adaptability.

Languages: Arabic (Native), English (Good)
